

RV CABLEMASTER

RV Power Cable Storage System

New Lower Profile — takes up less space!

Unlimited cable capacity — handles as much cable as you can store!

Adjustable for all cable sizes — fast, easy adjustment of cable tension!

No Slip Rings — eliminates potential electric connection problems

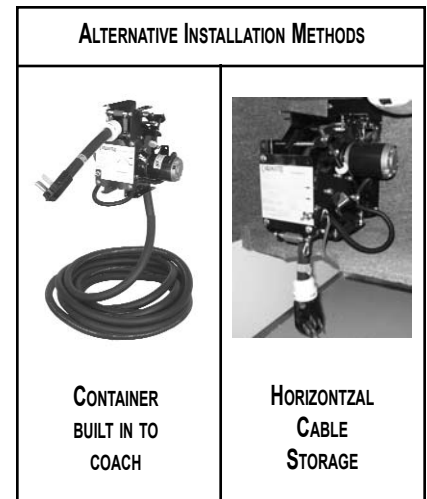

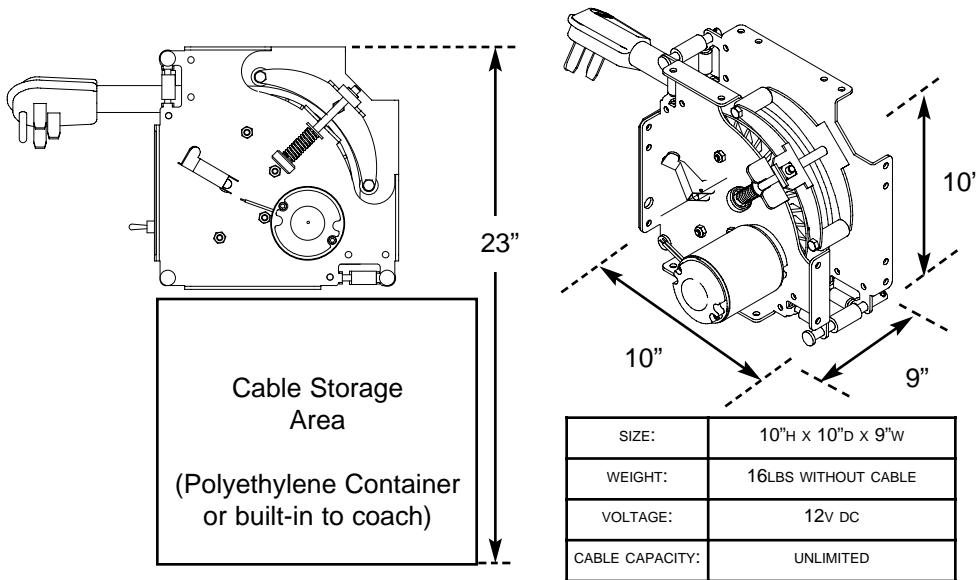

Easy to install!

You relax . . . we'll unwind!

YOU RELAX . . . WE'LL UNWIND!

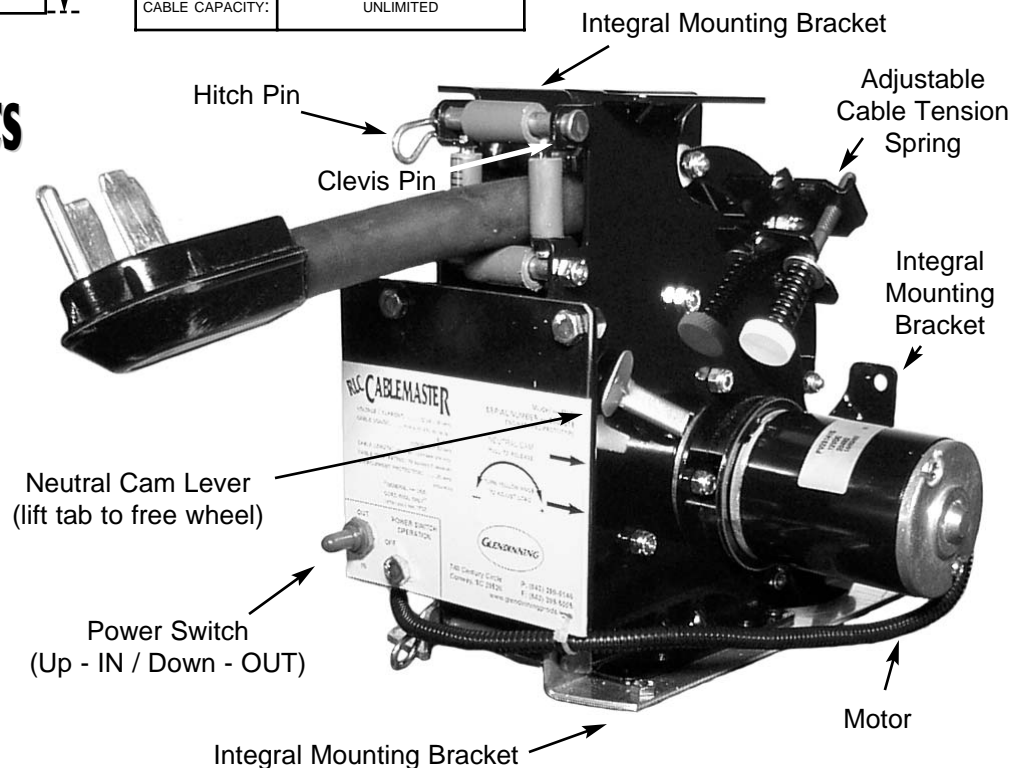

Glendinning is the leader of the RV power cable handling market since we first introduced the RV Cablemaster to the motorhome industry in 1990. Since then, thousands of very happy and satisfied RV owners have experienced the enjoyment of Glendinning power cord reel. No more heavy lifting. No more handling dirty or wet power cords when getting underway. Simply operate a switch and the RV power cord is reliably, quickly and easily payed out or retracted and stored away. This is why we say... "You relax.... we'll unwind".

The Model RLC Cablemaster is the newest design from Glendinning which incorporates several new features, including an easy-to-operate cable tension adjustment. In addition to new features, Glendinning has used the latest techniques in value engineering to make the RLC Cablemaster lower priced and more affordable. You can't afford to be without the convenience of power cable handling any longer!

Features and Benefits

- **UNLIMITED CABLE CAPACITY** — Need more cable length? No problem!
